EDUCATION

Bachelor of Science in Computer Science Curriculum | GPA: 4.0

Expected December 2026

Eastern Michigan University; Ypsilanti, MI

Awards/Honors: Finlin Award; Highest Honors; Dean's List – 2025

Associate of Applied Science in Computer Information Systems: Computer Science | GPA: 3.7

May 2025

Monroe County Community College; Monroe, MI

Awards/Honors: Presidential Scholarship; Dean's List – 2022, 2023, 2024

LICENCES AND CERTIFICATIONS

Google IT Support Specialist

Expected April 2026

TECHNICAL SKILLS

Languages & Tools: Python, Rust, C/C++, JavaScript, Java, Docker, Git, Ollama (LLM Orchestration), TensorFlow

Systems & Infrastructure: On-Prem Server Management (Proxmox, TrueNAS), AWS, Ubuntu, Windows Server

Networking & Hardware: Ubiquiti (L2/L3), DNS, DHCP, Network Hardware, Zero Trust Configuration

Core Competencies: Critical Thinking, Technical Translation, Adaptability

RELEVANT PROJECTS

TheboltOS (Custom Operating System) | Eastern Michigan University

Winter 2026 - Ongoing

- Architecting x86 kernel from bare metal; managed memory, interrupts, and hardware parity in C/C++.
- Developed custom TTY, bridging low-level hardware interaction with high-level user logic.
- Applied OSDev standards to ensure system stability and integrity in resource-constrained environments.

BidMaker (Full-Stack Web App) | Laibe Electric/Technology

Fall 2025 - Ongoing

- Translated executive requirements into a Python/Flask/MySQL app, automating 20+ professional workflows.
- Engineered on-prem deployment for data sovereignty, high availability, and reduced cloud costs.
- Designed a normalized database schema to facilitate company-wide analytics and decision-making.

UniCPU (Custom CPU Architecture) | Eastern Michigan University

Fall 2025

- Designed an 8-bit CPU, optimizing instruction sets via ad-hoc, systematic, and microcode control.
- Implemented Von-Neumann architecture to bridge hardware-software gaps for efficient data flow.
- Simulated logic gates and timing diagrams to validate architectural reliability and performance.

RELEVANT WORK EXPERIENCE

Information Technology Internship | Laibe Electric/Technology | Perrysburg, OH

May 2025 to Present

- Consolidated 10+ environments via Proxmox VE, reducing hardware overhead by 75% via bare-metal migration.
- Built a Python ETL pipeline syncing PostgreSQL and MS SQL to automate executive data reporting.
- Deployed Wazuh SIEM for real-time threat detection and proactive enterprise security risk mitigation.
- Designed disaster recovery via Proxmox Backup and TrueNAS, ensuring 100% business continuity.

LEADERSHIP AND ACHIEVEMENTS

"Best use of Gemini API" Prize Winner, GrizzHacks 8 Hackathon (Mar. 2026)

"Best use of Solana" Prize Winner, RocketHacks 26 Hackathon (Mar. 2026)

"Roots and Renewal" Track Winner, SpartaHack 11 Hackathon (Feb. 2026)

National Society of Leadership and Success (Jan. 2026 to Present)

Vice President, AI Student Association of Eastern Michigan University (Oct. 2025 to Present)

3rd Annual Student Symposium Presenter, Monroe County Community College (2023)

Eagle Scout, National Eagle Scout Association (2020)
